

Shirsendu 'Troy' Karmakar

Software Engineer | Consultant | Remote Work

I'm an engineer who pairs hands on knowledge of engineering and UX design. Currently consulting with startups improving their performance and scalability. I build solutions in languages such as Ruby, JavaScript and extensive expertise in product and project development methods. Using these knowledge and tools I'm able to help people and organizations improve their processes and develop systems. Part of the acquisition of SlideShare by LinkedIn. 12 years of experience in building web products. Working remotely for 3+ years with companies from the US to Australia.
